

# Constitution of Phoenix Station

## Preamble

We, the inhabitants of **Phoenix Station**, a permanent human settlement in space, establish this Constitution to ensure survival, dignity, knowledge, and continuity of civilization beyond Earth. Phoenix Station exists as a symbol of renewal, resilience, and responsibility. Bound by shared risk and shared systems, we adopt this Constitution to govern ourselves with reason, discipline, and justice, for the benefit of present residents and future generations.

---

## Article I — Core Doctrine of Phoenix Station

1. **Survival First:** The preservation of life-support systems and human life overrides all other interests.
  2. **Collective Interdependence:** No individual exists in isolation; all actions are judged by their impact on the Station as a whole.
  3. **Scientific Governance:** Decisions shall be grounded in verified data, engineering constraints, and expert review.
  4. **Peaceful Existence:** Phoenix Station shall never be used for aggression, domination, or coercive force.
  5. **Renewal Principle:** Systems, laws, and leadership must be continuously reviewed and improved.
- 

## Article II — Status, Citizenship, and Residency

1. **Station Citizenship** is granted to individuals who: a. Are born on Phoenix Station, or b. Are accepted through authorized transfer and complete the Station Integration Protocol.
  2. **Resident Status** may be granted to non-citizens for fixed durations under Station law.
  3. Citizenship is independent of Earth nationality, corporate origin, or planetary affiliation.
  4. Loss or suspension of citizenship may occur only through due process.
- 

## Article III — Fundamental Rights of Station Citizens

1. **Right to Life and Atmospheric Security**, including guaranteed access to air, water, nutrition, and medical care.
  2. **Right to Information**, including access to operational data not classified for immediate safety.
  3. **Freedom of Thought, Expression, and Research**, limited only where interference with critical systems occurs.
  4. **Right to Privacy** within personal quarters and personal data.
  5. **Right to Fair Process** before any sanction, reassignment, or confinement.
  6. **Right to Participate in Governance**, including voting, candidacy, and civic review.
-

## Article IV — Mandatory Responsibilities

1. Every citizen must comply with: a. Life-support and radiation protocols, b. Emergency drills and evacuation procedures, c. System access controls.
  2. Each citizen shall contribute skills, labor, or service proportional to their capability.
  3. Sabotage, negligence, or concealment of system failure constitutes the gravest offense under Station law.
- 

## Article V — Structure of Station Governance

Governance of Phoenix Station is composed of four integrated authorities: 1. **The Assembly** (Civil Representation) 2. **The Operations Command** (Engineering & Safety) 3. **The Administrative Directorate** (Execution & Coordination) 4. **The Judicial Forum** (Law & Review)

---

## Article VI — The Assembly

1. The Assembly represents the citizens of Phoenix Station.
  2. Members are elected by population sectors.
  3. The Assembly shall: a. Enact Station law, b. Approve budgets and resource quotas, c. Review executive and operational conduct.
  4. Constitutional amendments and emergency extensions require supermajority approval.
- 

## Article VII — Operations Command

1. Operations Command is responsible for: a. Life-support systems, b. Structural integrity, c. Power, propulsion, and station-keeping.
  2. It is led by a **Chief Operations Officer (COO)** selected based on technical merit.
  3. In immediate existential emergencies, Operations Command may override civil authority, subject to post-event judicial review.
- 

## Article VIII — Administrative Directorate

1. The Administrative Directorate executes Station law and Assembly policy.
  2. It is led by the **Station Administrator**.
  3. Responsibilities include: a. Personnel coordination, b. External relations, c. Logistics and scheduling.
  4. The Directorate may not interfere with Operations Command without Assembly authorization.
-

## Article IX — Judicial Forum

1. The Judicial Forum interprets this Constitution and all Station law.
  2. Judges are appointed based on legal competence and independence.
  3. The Forum has authority over: a. Constitutional disputes, b. Citizen rights claims, c. Review of emergency actions.
- 

## Article X — Systems, Resources, and Property

1. All core systems are **non-privatizable communal assets**.
  2. Personal property is permitted within safety and mass limits.
  3. Resource allocation shall follow transparent priority tiers: survival, maintenance, research, growth.
- 

## Article XI — Artificial Intelligence and Automation

1. AI systems may assist in diagnostics, logistics, and governance.
  2. No AI may exercise unchecked authority over life-support or legal outcomes.
  3. All critical AI systems must include: a. Human override, b. Audit logs, c. Redundant fail-safes.
- 

## Article XII — Security and Emergency Authority

1. Phoenix Station maintains defensive capabilities only against natural, environmental, or external threats.
  2. Emergency Authority may be declared by joint agreement of: a. Operations Command, and b. The Station Administrator.
  3. All emergency powers are temporary and automatically reviewed by the Judicial Forum.
- 

## Article XIII — External Relations and Space Law

1. Phoenix Station shall comply with international space treaties and norms.
  2. The Station claims no sovereign ownership over celestial bodies.
  3. Trade, research, and transit agreements must prioritize Station safety and autonomy.
- 

## Article XIV — Continuity, Failure, and Rebirth

1. Phoenix Station shall maintain redundancy, archives, and succession protocols.
2. In the event of partial failure, preservation of knowledge and population takes priority over structure.
3. This Article embodies the Phoenix Principle: **from failure, recovery; from loss, renewal**.

---

## **Article XV — Amendments and Ratification**

1. Amendments may be proposed by: a. Two-thirds of the Assembly, or b. A citizen initiative meeting quorum requirements.
2. Ratification requires a Station-wide supermajority referendum.

---

*Ratified aboard Phoenix Station — a permanent human presence beyond Earth.*
